Professional Summary

I am passionate about design, at the possibility that what I design will make someone's life or environment better. My designs are a thoughtful blend of innovation and ensuring they are functional from both manufacturing and end user perspective – creating something that's never been seen or done before. Innovation drives my designs each and everyday.

Skills

Quick ideation and clear illustrations of ideas, thrives under pressure, tackles problem solving and brainstorming processes, sketching, concept design, model making, prototyping, 3D modeling, rendering, traditional and digital medias, carpentry, foam and clay sculpting, and a range of various fabrication.

Applications

Photoshop, Illustrator, InDesign, Muse, Adobe suite, SolidWorks, CAMWorks (CNC software), Microsoft Word, Power Point, KeyShot, AutoCAD. - Mac and PC platforms -

Work History

Carpenter 1998 - 2012

T&S Hardwood Floors (Southern California)

As a custom hardwood floor installer, I led the installation of handcrafted medallions; custom designed flooring and staircases in residential homes; and fulfilled flooring requests for commercial businesses, such as hotels and restaurants. I successfully interacted and consulted with clients to ensure flawless installation of their design needs.

Sales Associate 1994 - 1998

Tilly's (Fullerton)

Built customer relations, while consistently exceeding sales goals. Assisted in the merchandising displays.

Rigger 1994 - 1998

Hydraulic Cranes Incorporated (Southern California)

Specialized in moving large/heavy objects. Aided in the maintenance and care of million dollar, award winning show cranes.

Education

Bachelor of Science: Industrial Design 2011 - 2014

Art Institute of California, Orange County – Santa Ana

California State University Fullerton 1995 - 1999
